

**the kitchen:  
heart of the house**

Since always the kitchen is the living center for eating, enjoyment and communication.

fliX Live gives you the opportunity to take this centrepiece out into the garden, on to your terrace or roof garden.

fliX Live was designed with the help of experienced chefs. It meets highest demands on technology and design.

A lot of fine and carefully selected ingredients make fliX Live very tasty – and that’s even before you’ve started eating.

### ...give wings to your kitchen

The clever concept creates variety within tight spaces. The slender table is equipped with fold-out, multi-functional wings at three of the four sides. In this way, according to your wishes, flix Live turns into a powerful kitchen, a show kitchen, a BBQ station or into an elegant buffet.

## materials & colours

**Wood:** flix Live is made of valuable and extremely robust hardwood multiplex.

**Colours:** Available in white and brown (brown: stylish silkscreen surface). Choose any colour you like for the drawers.

**Acryl Glass:** The lateral surface consists of frosted acryl glass to bring out the magnificent colours of the integrated LED-lighting.

**Metal:** The table legs are made of brush-finished stainless steel which is professional and accentuates the noble touch of flix Live at the same time.
